ADDITIONAL COMMENTS

During this quarter, TAA/TRA program subject matter experts continued to actively collaborate with the Project Manager, Project Management Team, and vendor on the development of the Trade Adjustment Assistance (TAA) case management process within a new information system. Once implemented, the system is expected to improve participant outcomes by streamlining service delivery and enabling comprehensive, one-stop customer service for TAA dislocated workers. The integration of modern computer hardware is anticipated to increase organizational speed, responsiveness, and overall efficiency in delivering TAA and Trade Readjustment Allowance (TRA) services. These upgrades are also expected to strengthen data security and ensure compatibility with future system enhancements, supporting long-term sustainability and adaptability.

ADDITIONAL COMMENTS

During this quarter, TAA/TRA program subject matter experts continued to actively collaborate with the Project Manager, Project Management Team, and vendor on the development of the Trade Adjustment Assistance (TAA) case management process within a new information system. Once implemented, the system is expected to improve participant outcomes by streamlining service delivery and enabling comprehensive, one-stop customer service for TAA dislocated workers. The integration of modern computer hardware is anticipated to increase organizational speed, responsiveness, and overall efficiency in delivering TAA and Trade Readjustment Allowance (TRA) services. These upgrades are also expected to strengthen data security and ensure compatibility with future system enhancements, supporting long-term sustainability and adaptability.

<sup>1</sup>Participant information is based on data given at the point of entry into the program.  
<sup>2</sup>Barriers to Employment are determined at the point of entry into the program.  
<sup>3</sup>Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

Public Burden Statement (1205-0521)
